#10 Summarize the strengths and weaknesses of the Teaching Fellow. In what ways was their teaching effective and in what ways could their teaching be improved?

Instructor(s): Dias Santamarina, Gabriel

Responses for Instructor: 20
Declined to Answer Question: 29

Respondent	Answer
1779548	Very knowledgeable
1781039	Gabriel is a great instructor, and explains the concepts in a way that is easy to follow - it is clear that he has a deep understanding of the material. Great teacher.
1789867	Gabriel was a fantastic TF, incredibly clear in his explanation of concepts and I think his office hours were instrumental to me understanding the problem sets and preparing for the exams. Also very kind and patient to his students. Cannot think of a better TF that I've had within the Econ major.
1790042	Very good teacher
1794277	My TF was amazing. He always had amazing sections that were very engaging and helpful. The topics I learned about in section strengthened and deepened my understanding of the class content.
1794919	He's very clear in expressing the content and is always willing to answer questions in a thoughtful manner.
1801406	Good job
1801973	Gabriel was absolutely incredible - he explained the complex step-by-step process in a manner that made it easy for any undergrad to grasp. He was also extremely patient, even as I barraged and interrupted him with a slew of questions. Gabriel is an absolute angel and the main reason I was able to make it through this class!
1803011	Gabriel was great at explaining all of the concepts!
1806607	Great
1806652	Gives great feedback, always willing to answer questions, and was a true friend of the students. He explained material very in-depth and went out of his way to make sure everyone understood the concepts. Overall a phenomenal teaching fellow.
1806670	Explained everything really well and every section helped me understand course material better!
1806690	Better at explaining concepts vs the explanation given in lecture.
1806697	The best teaching fellow Ive ever had. I could not be more grateful for his help
1806714	strengths: - always willing to answer questions - thorough explanations
1806804	Gabriel was a phenomenal teaching fellow and I wish him all the best in the future.
1807803	Gabriel was an amazing teaching fellow! He explained concepts very clearly, and in discussion section he would show us how to solve particular problems step-by-step, which gave me a stronger understanding of the material and made me more confident solving problems on assessments.
1808025	Gabriel is the GOAT! Although my official TF was Ali, I went to about half of Gabriel's sections either due to conflicts with my normal discussion time or just because he is so good (Ali was pretty good too). He clearly explains everything at a very reasonable and manageable pace, which really helped me understand the intuition behind the problems. In discussion sections, he is happy to repeat if any clarification and often does so in a different way to help students if they aren't understanding the original method. He also does "recaps" which are super helpful to give a big-picture overview of what we have done and where we are going. And it's very nice when he recaps what he's done so far when you miss a couple minutes of discussion.

Declined to Answer Question: 29

Respondent	Answer
1809630	Gabriel was really nice and kind and engaged in the discussion sessions a lot. He can always answer our questions to the point. It would be better if he could explain the maths while he works on the steps on the whiteboard.
1815871	He was extremely thorough in his explanations, which I appreciated very much. When solving problems, he would explain each step clearly and do a summary of all the steps and their conceptual explanations afterwards. He was also very thoughtful--each time a student came in a few minutes late, he would do an overview of what had been explained before. I do not have any particular suggestions for how his teaching could be improved.
